Think you have long-term care expenses covered?

You've built a good life for your family and worked hard for your home, your children's education, and your retirement. But if you haven't planned a way to pay for long-term care, you could lose it all. Long-term care isn't covered by Medicare, health insurance, or disability, yet 70% of people over age 65 will need it and costs could be as much as \$70,000 a year.

Learn how long-term care insurance can help protect what you've spent a lifetime building. Go to OwnYourFutureTexas.org, or contact me at:
