

## Protect the assets you've spent a lifetime building.

You don't think twice about having auto or home insurance. But what about long-term care insurance? Think about this: the chances of having a car accident are 1 in 240 and having a house fire are 1 in 1200. Yet your chances of needing long-term care are greater than 1 in 2. Actually, 70% of adults 65 and older will need some type of long-term care.
